REPORTER'S NEWS
Shooting Stars 4-H Club Report
May 8, 2024
Submitted By: Logan Raley

Meeting was held May 8th

Before the meeting, we planted flowers in front of the Fair Office. During the meeting we talked about old business. We reviewed past events that club members had participated in or upcoming events to get our members excited to attend. Some ideas we came up with were helping with the container garden at the fairgrounds. We also talked about some really cool field trips we might do. We then continued to talk about many more things. After the meeting adjourned, Mr. Cory taught/reminded us of air rifle safety and Barbara Dobbins taught/reminded us of archery safety. We then were able to use the archery and air rifle equipment in a supervised setting. We have two upcoming archery and air rifle days coming up on May 16th and May 19th.
